

## What Challenges & Opportunities Exist in Butler County?

## What makes Butler County's geographic regions unique?

With the first graduating class in 1991, Leadership Butler County is a unique year long program, designed to give you the answers to these questions and many, many more. The program brings together the perspectives of local, regional and national presenters, authorities on local issues, volunteers and beneficiaries of county-wide programs and services.

Interacting with these individuals and many others gives Leadership participants a truly uplifting, and often times thought provoking view of the challenges facing the fastest growing county in PA.

Leadership Butler County is managed by a Board of Directors and funded through sponsorships and tuition.
